

# By the sea or by the river

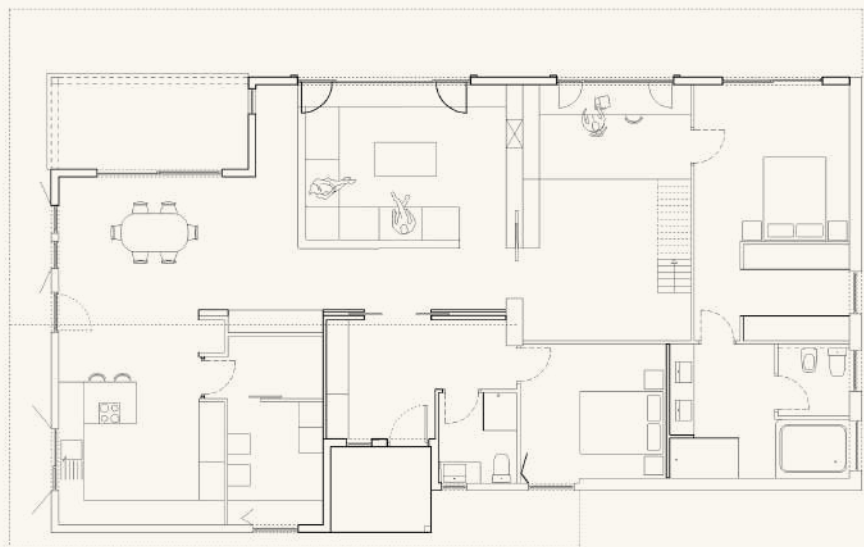

Blue like the sea, green like the countryside, white like the clouds or natural like wood. Colours allow you to personalise your home and integrate it into the surrounding landscape. This is the case with this house, which alludes to the coastline. With around 240m<sup>2</sup> of built area, of which 224m<sup>2</sup> are habitable and more than 15m<sup>2</sup> are porches, this elegant house was designed to house 2 to 3 bedrooms, one of them on a mezzanine level that can also be used as a multipurpose room. The living room, dining room and kitchen form a large open space of around 45m<sup>2</sup> plus a utility room and technical room of 10m<sup>2</sup>.
